## II- Reading Comprehension ( 20 Marks)

### Read the following passage then answer the questions below :

People are the only animals that cry. We cry when we are sad or happy. When someone dies, we cry. When a baby is born, we cry. What are tears? How do they come? We know, for example, that all tears have salt in them. We also know that there are two different kinds of tears, emotional tears and reflex tears. The first one comes from feelings and the second is the kind that comes when we get a piece of dirt in the eye or when we peel an onion .

Women cry not less than four times more than men do. We don't know for sure, the reason for this .Maybe it is because of biological factors or because it is habitual for women, not men, to cry in our society. Crying is good for us. **It** protects us from these diseases, so crying makes us stay healthy.

### A. Choose the best answer from a b. c, and d (3x2=6 Marks)

### III- Summary Making ( 8 Marks )

#### Read the following passage then answer the question below

I prefer possessing a bicycle to a horse. A horse can go over the rough ground, jump over fences ,while a bicycle cannot. People say that the horse being an animal, one may make a friend of it. In addition to this, they say that horses can carry heavy loads and travel long distances. On the other hand, a horse is expensive to buy and keep. It needs constant care and falls ill .

A bicycle really helps overweight people lose some weight and get fit. However, they can't practise this sport in winter when it is very cold or heavily raining. A bicycle doesn't cost much to buy, and lasts for many years if it is kept clean and oiled. It needs no food at any time of day or night. When one wants it, it never falls ill or dies. It is both quicker and more easily managed than a horse.

#### In four sentences of your own write about the advantages of having a bicycle :
