Have you ever noticed how busy the roads and streets in Kuwait are, especially in the rush hours.? Almost every family has a car. Some families have more than one car. These cars do a lot of harm. **They** cause many accidents and they also cause pollution.

In the past, people used simple means of transport like animals and carts. They took a long time moving from one place to another. However, they were happy and met few dangers on the way.

Nowadays, people spend a short time travelling by cars, trains and planes. But they have grown **depressed** and worried. They face various dangers. Once I was travelling by plane, suddenly, something wrong happened when the plane went off its way and it was flying over unknown lands, so the pilot asked for help. Then, came silence. What happened ? Nobody told us anything. We were worried and afraid. Some passengers started to cry.

Search operations started soon .Ten planes and three ships took part in these operations. Their aim was to find our plane which had failed to fly back. Finally, it could be found and guided to the nearest airport. Nobody was injured, the passengers were safe and the pilot was happy. In fact, I can't forget that terrible flight. Whenever I remember it, I thank God for **its** happy end.

III- Summary Making (20 Marks)

Read the following passage carefully, then answer the question below:

What is civilization ? According to the dictionary , civilization means an advanced stage of human social development with a high level of art , religion , science and government. In other words, it's the type of advanced society of a particular time or place. The condition of people where men were like animals is called barbarism. Civilization is the opposite of that . Breaking the law , fighting in the streets , throwing rubbish around , disturbing others by loud speakers, using horns of cars foolishly and nervouslythese are examples of uncivilized societies. Aggressive wars are also signs of the uncivilized societies.

Fine arts, fine clothes, fine buildings, beautiful pictures, nice music are certainly clear signs of civilization. But an even better sign is a fine man who is polite, considerate, honest, kind and unselfish. He works with others for the good of all. Civilization, in my opinion, is co-operation for the common good of all people.

In four sentences of your own , answer the following question:(4 x 5 = 20)

What do the uncivilized people do ?
